Infowar School Emergency Alert:

Geoengineering, also known as climate engineering is poisoning our planet at a rapid rate and it is being carried out by the N.W.O. They are spraying millions of tones of aluminum nano particles into our skies with other metals and chemicals. This is what is causing severe weather. It is not carbon dioxide (CO₂) or human activity. It is the N.W.O.

Learn what geoengineering is and warn others about it. Tell your government to stop using it. The government will resist by claiming you are a conspiracy theorist so you must learn about geoengineering then you can counter their claims and expose their lies and their support for the N.W.O.

The following are the effects of geoengineering. These effects are not caused by human made CO₂. This is what the N.W.O. are doing to you and your family and your pets by using geoengineering.

1. Killing the plant life and forests.
2. Causing frequent and hyperactive forest fires from all the poisoned dead trees. Also, the aluminum spray burns when it is made into nano sized particles making the fires more severe.
3. Polar ice melting from altered ocean currents.
4. Severe droughts.
5. Severe floods.
6. Severe ice storms.
7. Killing farm animals and crops in mass with drought, and floods and freezing weather.
8. Destroying ozone and allowing dangerous UVC rays from the sun to reach the earth surface and kill plants and living creatures on land. UVC rays cause life to die in the oceans due to lack of oxygen.
9. Poisoning people and killing them with aluminum nano-particles that cause neurological disease.

Introduction

This is level 2 of the environment course where we will look at how the N.W.O. is using geoengineering to destroy the weather and the life support systems of the earth. They have to create the problems that support their lies. It is one of their most used tactics called 'problem reaction solution'. They create the problems and we have a reaction then they give us their solutions that help them reach their goals.

Our information comes from a website called geoengineeringwatch.org and a documentary that was produced by Geoengineering Watch called *The Dimming*. A link to the documentary and the website are listed below. There are also a number of documents shown at the website geoengineeringwatch.org that prove geoengineering is real. There is a lot of good and important information found at geoengineeringwatch.org concerning climate engineering.

Dane Wigington is the host of the 'The Dimming' documentary and the main contributor to the website geoengineeringwatch.org. It appears Dane Wigington also believes that human caused CO2 is causing climate change which is not something Infowar School believes or teaches and you can see the proof that CO2 is not harmful in level 4 of the environment course. This does not mean Dane Wigington is part of the N.W.O. or that he is wrong about climate engineering. Many info warriors concentrate on a specific area and may not know the absolute picture or they may still trust organizations like the UN or the IPCC. Infowar School is grateful to Dane Wigington and the dozens of people that are working with him to expose and stop geoengineering which is one of the most serious and deadly threats to the human race.

We will be referring to this documentary titled "The Dimming" often during this course and the content being referred to and the time that it appears in the documentary will be shown so you can locate and watch those parts in the documentary. You will see the time of the content shown this way: *16:30 of The Dimming*. This refers to the 16 minute and 30 second mark of the documentary where the content referred to can be seen.

What Is Geoengineering (Also Called Climate Engineering)

There are several techniques used in geoengineering but the main method used is spraying nano particles into the atmosphere using airplanes and then using electromagnetic frequencies to heat or cool the particles which has an effect on the weather patterns.

Each year governments are spraying 10 to 20 million tones of aluminum nano particles and 10 million tones of sulfuric acid into the atmosphere along with other substances such as barium, strontium and manganese.

18:20 of The Dimming,

David Keith is a scientist that is involved in geoengineering and he tells us about spraying sulphuric acid into the sky 20 kilometers over our heads. There are also several other statements by David Keith and others involved in geoengineering about how they use aluminum nano particles.

19:40 of The Dimming,

David Keith describes how airplanes are used to spray the aluminum and other substances into the atmosphere.

In the next clip from the documentary The Dimming, another scientist tells us the amount of sulfuric acid they would use. They say this is only something they are planning.

37:00 of The Dimming,

Alan Robock a geoengineer tells us that they calculated the effects of spraying 5 - 10 million (mega) tones per year of sulphuric acid.

44:14 to 51:30 of The Dimming,

In this clip we are shown the various methods of manipulating the weather using climate engineering (geoengineering). You will see how electromagnetic frequencies can manipulate the flow of water from a tap and moisture in the atmosphere to create or change weather patterns. HAARP is also used to heat the atmosphere and the particles that are sprayed into the sky.

Why Do Governments And Other People And Organizations Want To Spray Our Skies?

They tell us they are trying to save us from an overheating planet because humans are putting too much CO₂ in the air. This is a lie. The reason they are climate engineering is to control the world and to build their N.W.O. Even president Johnson tells us so in the following clip.

15:30 of The Dimming,

In this clip former president Johnson tells us **"he who controls the weather will control the world"**

16:20 of The Dimming,

In this clip you can hear news casts tell us there are **172 bills before the American Senate calling for geoengineering** (climate engineering) and **people like Bill Gates and John P. Holdren** tell us that geoengineering is supposed to save us from harmful radiation from outer space. We already have an atmosphere that does that for us. They are creating problems that don't exist to manipulate us. **CO₂ blocks harmful radiation.** Geoengineering destroys ozone and that allows harmful UV rays to reach us.

18:20 of The Dimming,

John Brennan tells us at a CFR meeting that spraying the skies will stop global warming. Global warming is not a problem for us. Geoengineering is because it destroys our ozone and poisons all life on earth.

CO2 Is One of the Best Coolants for the Planet

The following article from NASA will destroy the entire man made CO2 global warming theory in once sentence. It tells us that CO2 is one of the best coolants for the planet. So why are the N.W.O. destroying the planet with geoengineering? It is because the N.W.O. are using it as an excuse to make us accept their control of the world as we saw in level 1 of the environment course. There is no climate emergency so they have to create environmental problems that don't already exist.

[Solar Storm Dumps Gigawatts into Earth's Upper Atmosphere](https://science.nasa.gov/science-news/science-at-nasa/2012/22mar_saber)

https://science.nasa.gov/science-news/science-at-nasa/2012/22mar_saber

Dr. Tony Phillips

March 22, 2012

Science@NASA

“Carbon dioxide and nitric oxide are natural thermostats,” explains James Russell of Hampton University, SABER's principal investigator. “When the upper atmosphere (or ‘thermosphere’) heats up, these molecules try as hard as they can to shed that heat back into space.”

That's what happened on March 8th when a coronal mass ejection (CME) propelled in our direction by **an X5-class solar flare hit Earth's magnetic field.** (On the “Richter Scale of Solar Flares,” X-class flares are the most powerful kind.) Energetic particles rained down on the upper atmosphere, depositing their energy where they hit.

For the three day period, March 8th through 10th, the thermosphere absorbed 26 billion kWh of energy. **Infrared radiation from CO2 and NO, the two most efficient coolants in the thermosphere, re-radiated 95% of that total back into space.**

They Are Creating Problems to Use against Us

They tell us geoengineering is a last resort because nothing else will save us as if we needed saving from something harmless. But the same scientist tells us it's not even a good way to stop global warming. CO2 does not cause dangerous global warming or anything even close to dangerous. CO2 does not control the weather. But geoengineering does cause global warming by destroying the ozone layer and allowing dangerous UV rays to heat the earth and it changes the weather patterns. So they are doing exactly what they are telling us they want to stop. This is how they create the problems that don't exist and blame CO2 for those problems and make us shut off our energy and destroy our prosperity and independence and poison life on earth.

17:45 of The Dimming,

David Keith tells us geoengineering is "fundamentally imperfect"

18:40 of The Dimming,

David Keith tells us "it would not" be a good way to stop global warming.

Spraying our skies with nano particles to block out the sun and change weather patterns interferes with green energy production by severely lowering solar panel outputs and changing wind patterns. But we are told that we need green energy to save us. It is because this climate hysteria is all about making us accept the N.W.O. and not about saving us from harmless and life saving CO2. If the planet heats up it is because of the natural weather cycles and we can deal with that if the N.W.O. would just stop destroying everything and interfering with us.

Governments around the World Are Already Spraying Our Skies and Have Been For Decades

Our governments don't want to admit they are using geoengineering because they will be admitting to killing life all over earth and it will also show that our problems are caused by their damage and not CO2. Not every single person in government knows about this and even some of the people involved are unaware its happening because of something called compartmentalization. That means people are only told what they need to know because most people would say no to this or expose the lies and plans of the N.W.O.

The media and other so called fact checking people tell us that the long white trails behind airplanes are water vapor. Jet engines can only make water vapor trails that last for a few seconds under very rare conditions. And if it was exhaust that was blanketing our skies they should be complaining as well but they are not. They lie and tell us its water vapor and they act like its no big deal but it's not water vapor. Its aluminum nano particles and other substances.

32:0 of The Dimming,

Here you can see news articles that show **china already used geoengineering** to cause major snow storms in Beijing and how **Russia used it to stop rain** on their public holiday. You can also see articles about the US government funding the program.

5:30 of The Dimming,

In this clip Bill Vander Zalm, the former premier of British Columbia in Canada, tells us that he requested **information on geoengineering from the Canadian Government** through a freedom of information request. He received a forty page report with many **pages entirely blacked out** and others with many parts of the pages blacked out. The report is dated as far back as **2012** and it shows that **they are very aware of the program.**

As we saw in the clip above at the **19:40** mark, David Keith tells us they use airplanes to spray these particles. They also tell us that this is something that is only being considered as a last resort to save us from climate change. Go look at your sky and it is likely that you will see the trails of nano particles and if you don't they will likely be along soon. This weather modification program has been active for decades. It was used in Vietnam to cause severe rain. You can even see the long white trails in the sky in old TV shows and movies in the background.

26:45 of *The Dimming*,

Air force Brigadier General Charles Jones is an expert in contrails (condensed water vapor trails) and tells us those long white lines behind the airplanes are **not contrails**. General Charles Jones **used to categorize contrails to identify types of aircraft in flight**. He tells us contrails are much different than chemtrails (chemical trails) which are long white trails that linger and slowly expand to cover very large areas. **The contrails are very short and only last a few seconds.**

Samples from Air and Rain and Soil Confirm Geoengineering Is Being Used

7:30, 23:00 and 1:21:00 of *The Dimming*,

Samples of the trails from the airplanes were taken and analyzed by geoengineering.org and they found nano aluminum particles and nano barium particles which are **the exact substances used for geoengineering**. These substances are also found in rain water and match samples collected from all over the USA and around the world.

1:29:30 of *The Dimming*,

Lichens are plant like organisms and only get their nutrients from air and rain because they have no roots. **When tested they showed high levels of aluminum** because there are high levels in our air and rain. Soil and rain is ten times more alkaline and it causes microbes that produce nutrients to die and it stunts roots in plants and trees and has other deadly effects on plants and trees like fungal infection.

Weather forecasters and other weather involved people know about this program and they know it is already in use so they have been warned to keep quiet by the federal government of the US.

WEATHER SERVICE EMPLOYEES TETHERED BY ILLEGAL GAG ORDERS

Special Counsel Asked to Reverse Recent Raft of Blanket Nondisclosure Policies

Posted on Oct 08, 2015 | Tags: **NOAA**

Washington, DC — National Weather Service employees face growing restrictions on their ability to disclose information about the inner workings of their agency, according to a complaint filed today by the National Weather Service Employees Organization (NWSEO) and Public Employees for Environmental Responsibility (PEER). They contend these gag orders are illegal and are pressing U.S. Special Counsel Carolyn Lerner to lift these nondisclosure policies and take action against responsible officials.

1:20:10 of The Dimming.

The **radar from the weather forecasts will show the aluminum spray** and the weather people are lying and telling us that it is the air force practicing their radar jamming. They **all admit that aluminum is being used**. One forecaster even says they are **clouds being sprayed** at exactly the 1:20:18 mark of The Dimming.

Another forecaster at 1:20:45 says again that it is chaff from air force planes that are practicing radar jamming but it happens to be **140 miles long and crosses the entire state of Florida** from west to east. It's not a test.

Operation Popeye

Operation Popeye was a secret weather modification program that lasted five years and totaled over two thousand flights used during the Vietnam War to cause severe rain. It was a secret operation. Today we are witnessing the secret geoengineering operation in our skies that is denied by all governments but it is happening.

1:14:25 of The Dimming.

There are **hundreds of documented secret experiments** conducted on the American public including spraying.

Project Controlled Weather - Operation Popeye

<https://www.youtube.com/watch?v=9mJqFxArpy0>

Dark Docs

Nov 21, 2020

These trails from planes spraying chemicals during operation Popeye **look exactly like the trails we see today**. Only now we are told they are water vapor. Operation Popeye was also a secret operation.

26:20 of The Dimming,

In this clip you can see air force planes spraying various types of chemicals for various types of operations. They look exactly like the spray we see from airplanes today in our skies. **This is what it looks like when an airplane sprays a substance and is not producing a water condensation trail.** This shows that the trails we see today are not water condensation trails.

2:10 of The Dimming,

In this clip you can see **planes spraying the skies and turning the spray on and off.** There is also an animation of the operation of an airplane engine and you can see that the majority of the air is only pushed by a fan spinning at high speed and only a small amount of the air is hot exhaust. Because of this design **it is very difficult for a plane to produce a condensation trail** and when it does the trail disappears very quickly within seconds. You can also see pictures of the nozzles that are part of the airplanes that are used to spray are also shown.

3:00 of The Dimming,

In this clip you can see **patents for weather modification by airplane spray that date back over one hundred years** and an example of an early airplane spraying particles to produce a smoke screen for a military application. You will also see WW2 bombers testing the spray technology and right after WW2 spraying programs started.

The Harmful and Deadly Effects of Geoengineering

Geoengineering is killing all life on the planet and people in our governments know it because they are part of the N.W.O. Not every single person in our governments is part of the N.W.O. and not every single person in the government knows about geoengineering but there are a lot of N.W.O. members in all positions spread around so that they can control what is happening.

-

They Are Lying To Us about the Deadly Effects

Nothing thrives on aluminum nano particles. It is deadly to all life on earth. We have no natural defenses against aluminum nano particles. They are small enough so that they go everywhere in our bodies and are not cleared like viruses are and we don't produce antibodies against them. There is no barrier to them in any part of the body. They accumulate in our bodies in all our organs and become more toxic as time goes on.

Listen to the scientists David Keith and Alan Robock try to hide how dangerous and deadly the effects are and then listen to them admit how deadly the effects are. It depends on who David Keith and Alan Robock are speaking to when they decide to be honest or deceptive. If they are speaking to someone who wants to support geoengineering who won't expose the dangers or who just jokes about the dangers then they are willing to admit that it is dangerous. But if they are speaking to someone who wants to stop geoengineering because it is killing our planet and is part of the N.W.O. strategy, then these scientists are deceptive and try to hide the dangerous effects.

36:50 of The Dimming,

listen to David Keith and Alan Robock who are both **geoengineers try to hide how dangerous the effects are of geoengineering** when they are asked by Dane Wigington about the effects of the aluminum nano particles **on human health and the environment**. Alan Robock says that the 10 to 20 million tones of sulphur (sulphuric acid) sprayed into the atmosphere is tiny compared to the amount that comes from industries and that **it wouldn't be harmful**.

David Keith and people from Carnegie Mellon University did a study on human health impacts. David tells us that the effects of their spraying compared to the effects of industry is **'negligible and irrelevant'**. He says: 'The aluminum we have only begun to research and have published nothing. For aluminum there are a lot of toxicological effects that need to be looked at seriously. **We haven't done anything serious on aluminum (effects) and there could be something terrible we find tomorrow we haven't looked at.'**

These two geoengineers, Dave Keith and Alan Robock, have stated on video in 2009 that the effects wouldn't be harmful and they are negligible and irrelevant.

20:15 of The Dimming,

David Keith admits on video that **tens of thousands people each year may be killed as a direct result of geoengineering**. Does that sound negligible or irrelevant? He also admits to other serious and deadly environmental effects as we will see in later clips. And what about the animals? They suffer too.

Alan Robock himself has published at least two articles on the negative effects of geoengineering. They are both listed below. So how can he say "it wouldn't be harmful"? One article was published in 2008 and the other in 2018. They are fully aware of the dangerous effects.

[20 Reasons Why Geoengineering May Be a Bad Idea Alan Robock.pdf](https://journals.sagepub.com/doi/full/10.2968/064002006)

<https://journals.sagepub.com/doi/full/10.2968/064002006>

[Geoengineering could have animals running for their lives](http://go.nature.com/2DsFWUa)

<http://go.nature.com/2DsFWUa>

By Alan Robock, Department of Environmental Sciences, Rutgers University, New Brunswick, New Jersey, USA

Here is a study by the United States Air Force that shows aluminum nano particles are toxic and they lower immunity. By breathing in aluminum nano particles your immune system is dramatically suppressed and you are more susceptible to airborne infections.

[In Vitro Toxicity of Aluminum Nanoparticles in Rat Alveolar Macrophages](https://scholar.afit.edu/cgi/viewcontent.cgi?article=4401&context=etd)

<https://scholar.afit.edu/cgi/viewcontent.cgi?article=4401&context=etd>

Andrew J. Wagner

Even at 5 µg/ml, 50 nm Al-NP(aluminum nano particles) caused a 48% reduction in phagocytosis that was statistically significant compared to the control. The inability of the cells to function properly could contribute to the onset of infection since these impaired

macrophages will **not be able to quickly clear bacteria** that make it to the alveoli (Lundborg, et al., 2001).

In addition, synergistic effects might occur between materials and particles that were in the air with **Al-NPs (aluminum nano particles)**. **Previously non-toxic materials or particles**, usually consumed by macrophages, **could contribute to fibrosis or other diseases in the lungs if they are not removed**.

16:30 of The Dimming,

One professor named Gregory Benford from UC Irvine and the US Department of Energy Research actually believes that the aluminum and barium spray is harmless.

1:15:10 and 1:18:00 of The Dimming,

Dr. Dietrich Klinghardt, PhD, MD, Founder of Sophia Health Institute tells us that **aluminum nano particles and even aluminum itself is not natural in nature**. If aluminum is found naturally in nature it is in another form and not the type that is found airplane frames or bike frames or other goods. **These nano particles are highly aggressive and react chemically with the proteins in our bodies**.

1:34:30, 1:37:50 and 1:40:00 of The Dimming,

In these clips you can see how the **aluminum nano particles are inhaled and travel into our brains**. You can also hear from Dr. Klinghardt tell us that the only way for these particles to enter our bodies is by **injection or inhalation** and that **humans now have billions of them in our hearts and brains**.

25:15 of The Dimming,

Dr. Hamid Rabiee tells us that in recent years he has seen patients with Alzheimers, Parkinson's and other **neuro degenerative diseases** cause by aluminum toxicity **increase almost four times**.

1:40:00 of The dimming,

5G and wifi are reacting with the aluminum in our bodies just like it reacts with the aluminum in the sky. The reaction **causes our DNA to be broken down** which causes numerous health problems.

Destroying Ozone

20:00 of The Dimming,

David Keith tells us that **spraying sulphuric acid into the atmosphere causes ozone depletion and that nano particles also cause ozone depletion**. Remember in the topic above when he said the bad effects were negligible and irrelevant and when they did no studies on the harmful effects of the aluminum? It sounds like he lied doesn't it.

By destroying our ozone layer, the N.W.O. and the geoengineering scientists and our governments are allowing dangerous UVB and UVC radiation to reach the earth's surface. When these rays that are normally stopped by ozone contact the surface of oceans and lakes and rivers they cause oxygen to be released from the water and that leads to deaths of fish that breathe the oxygen in the water. The lack of sunlight in the oceans because of the spray in the sky is killing the plant life in the oceans because they

need sunlight to live. This causes less oxygen in the oceans because the plant life is dying from lack of sunlight and the result is oceans that can't support as much life as before.

Bees and Insects Are Dying From Aluminum Poisoning

1:34:50 of The Dimming,

Bees and insects are dying from aluminum poisoning all over the world and are exhibiting **symptoms of dementia and Alzheimers**. When the bees die there are serious negative effects on plant life which then affect animal and human life.

Geoengineering Is Killing Forests and Causing Severe Fires

22:50 of The Dimming,

In this clip you can see a US patent for "**combustible compositions for generating aerosols, particularly suitable for cloud modification and weather control and aerosolization process**". They are literally producing materials that are combustible and then spraying them into the air

All this aluminum that is falling to the ground is killing forests by destroying the soil and poisoning plants and trees. The extreme UV radiation that now hits the forests because of the destroyed ozone layer is also killing the trees. Because of all the dead wood and highly flammable aluminum nano particles, forest fires are far more severe. Aluminum nano particles burn and produce a very high temperature. Lightning strikes are also more common because they now happen without rain due to the highly conductive and charged atmosphere. But we are told its all from CO2 and never any mention about geoengineering.

1:17:35 of The Dimming,

Nano particles are not like the original material. They behave differently. **Nano aluminum starts burning at a lower temperature so it is easier to ignite** and it also explodes. When it is burning it **creates a very high temperature that makes forest fires more severe**.

56:00 of The Dimming,

In this clip you can listen to how the aluminum is destroying the forests and causing severe forest fires.

Our Soil Is Being Destroyed By the Aluminum Nano Particles

1:29:30 of The Dimming,

Lichens are plant like organisms and **only get their nutrients form air and rain** because the have no roots. When tested they showed **high levels of aluminum** because there are high levels in our air and rain. **Soil and rain are ten times more alkaline** and it **causes microbes that produce nutrients to die and it stunts roots in plants and trees and has other deadly effects on plants and trees like fungal infection**.

Ice Storms from Geoengineering Are Killing Farm Animals and Property

51:30 of The Dimming,

In this clip you can see how chemicals sprayed into the sky are used to create winter weather by **forming ice through chemical reactions**. It is deadly. This is why we have **severe ice storms** now that cover our streets and buildings with ice. How many deaths and injuries are caused by this already? The severe snow and ice storms are also killing farm animals.

34:35 of The Dimming,

In this clip you can see documentary footage of experiments from the 1940's and later and changes in our skies and climate started during these times. **These experiments caused snow storms.**
